

Thursday 20 August 2020

*Keeping you informed*

## Northern staff car park

The Stage 3 construction zone will be temporarily extended to include a corner of the northern staff car park.

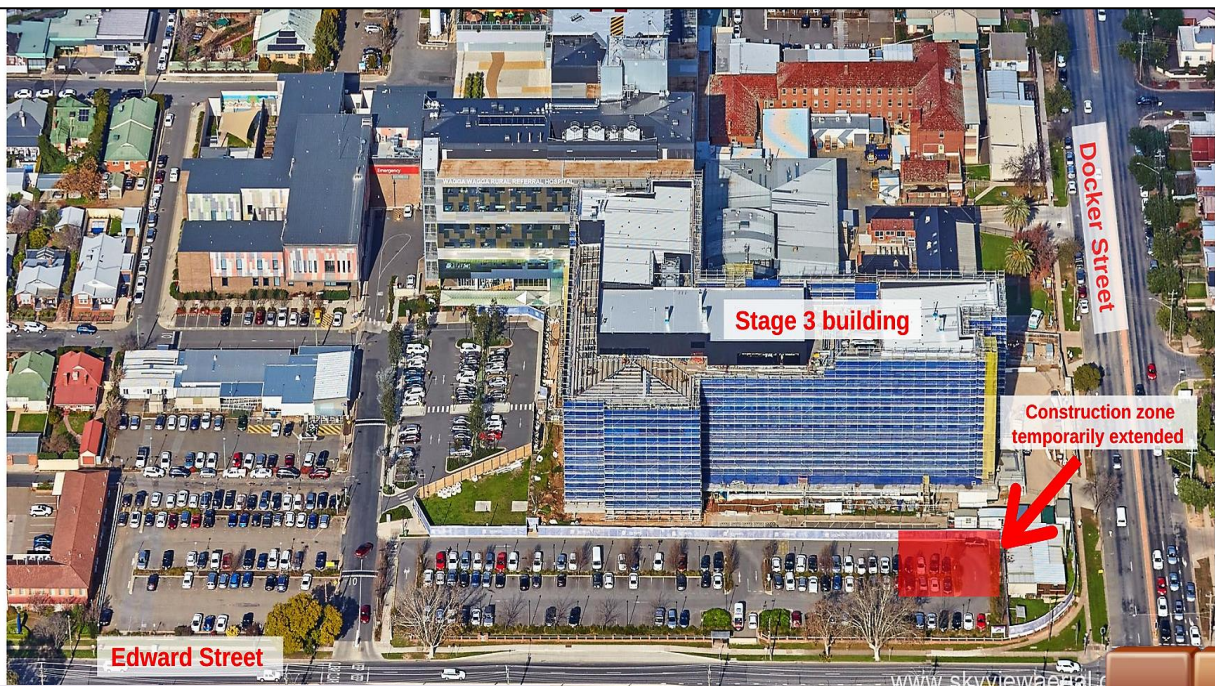

Please be advised that weather permitting the extension will remain in place for approximately one week from **7am Monday 24 August 2020 to 7am Monday 31 August.**

It will impact nine staff parking spaces during the work to complete connection of the stormwater service between the new Stage 3 building and existing infrastructure.

This is one of several works being planned in an expanded Stage 3 construction zone. The works are being rolled out in a staged manner to minimise disruptions to the delivery of health care.

*Thank you for your ongoing assistance.*
