New artist impressions

A fresh series of artist impressions of the Stage 3 building was unveiled in July during a visit to the construction site by the Minister for Health Brad Hazzard.

This will be a 21st century health facility for the Riverina.

Minister for Health Brad Hazzard

Accompanied by Member for Wagga Wagga Dr McGirr, Minister Hazzard spent time on the construction site and also visited the new BreastScreen NSW Wagga Wagga clinic in the city's central business district.

The winning name is ...

Wama-rra

10 year old **Hamish Wilkinson** from Wagga Wagga Public School is the winner of the Name the Crane Competition.

Hamish was inspired by the Wiradjuri word for 'build' in selecting the name Wama-rra for the tower crane on the Stage 3 construction site.

He has won an iPad. A banner with the crane's name will be displayed from the 48.9-metre crane.

Six other students secured places in the Name the Crane Colouring Competition. See the work of all the Competition winners on the [Redevelopment website here](#).

More than 200 students from primary school students across Murrumbidgee Local Health District entered the Competition.

A selection of the entries will be displayed in the Wagga Wagga Hospital foyer from the middle of August.
